Description of the processing activity

1. Collection of applicant data: We receive personal data from applicants through our website or by e-mail. This data can be named...

What is the personal data used for?

Purpose of data processing

Implementation of the application process for a position in the company.

Legal basis

Art. 6 Abs. 1 lit. b, Art. 88 i. V. m. § 26 Abs. 1 BDSG

Europrivacy^{TM/®}

Building Trust and Confidence

The Official European Data Protection Seal for GDPR

Europrivacy is an innovative methodology and certification scheme developed through the European research programme to assess, enhance, certify, and value compliance with data protection laws. It is supported by online resources and a global ecosystem of official partners to simplify compliance and to do it right.

WHAT

Europrivacy is the **official European Data Protection Seal** for GDPR certification recognised by all EU Member States.

Its criteria are **applicable to almost any data processing activities**, including those involving innovative technologies such as Artificial Intelligence, Internet of Things, blockchain, etc.

They are **continuously monitored and updated** by an International Board of Experts to align with regulatory changes and jurisprudences.

Europrivacy is supported by **online resources and tools**, as well as by a global ecosystem of **official partners**.

WHY

- **Assess and document compliance.**
- **Reduce risks for all**, including legal, financial, and reputational risks of applicants, as well as risk associated with data processors by requesting them to certify their services.
- **Demonstrate compliance** and commitment.
- **Improve reputation** and market access with competitive advantages.
- **Value compliance** and turn it into an asset.
- **Support and frame data transfers.**
- **Simplify** and homogenise compliance management with common criteria.
- **Do the right things right** for data protection

HOW

1. **Go to www.europrivacy.com**
 - ▶ purchase a Europrivacy **Welcome Pack**
 - ▶ discover our ecosystem of qualified partners
2. **Check and document your compliance** with the Europrivacy criteria to reduce your risks
3. **Certify and value your compliance**
4. **Maintain, enhance, and enjoy** with our online resources and community
