Asia Privacy Certification
Authoritative Resource List

The IAPP and the Exam Development Board compiled the following list of resources for the purpose of furthering education in information privacy. These selections support the Certified Information Privacy Professional/Asia (CIPP/A) credentialing program which assesses candidates’ understanding of information privacy laws and practices that apply to Singapore, Hong Kong and India.

Resource Breakdown:

- The **primary** resources are publications that encompass the domains on the CIPP/A body of knowledge.
- The **supplemental** resources are other notable sources that may focus on specific geographical areas of the Body of Knowledge
  - The IAPP strongly suggests that you incorporate supplemental reading into your regimen for exam preparation based on your individual needs.
  - The IAPP [How to Prepare](#) link connects you to our Daily Dashboard, Resource Center, Podcast, BoKs, and much more. This site is updated daily and offers a wealth of supplemental information.

While we recommend these as comprehensive, widely recognized privacy resources that cover the topics outlined in the BoK, candidates for certification must understand that no published text can keep pace with the rapidly changing privacy landscape.

We continuously adjust our exam content to represent the latest regulatory and technological changes and we expect candidates for IAPP certification to know about the important developments in their sector that may modify or supplant information in the authoritative texts.
**Primary Resources:**

*Note: This link will take you to a dynamic webpage where you can access information from the handbook in a searchable format. Select from the desired Handbook and then the applicable Jurisdiction.*

**Supplemental Privacy Resources**

**SINGAPORE**
(In alphabetical order)

HONG KONG
(In alphabetical order)

INDIA
(In alphabetical order)

- Ministry of Communications and Information Technology (Department of Information Technology) Notification. *Information Technology (Reasonable Security Practices and procedures and sensitive personal data or information) Rules, 2011*. Controller of Publications. 11 April 2011.

IAPP Resource Center:

The IAPP Resource Center is a searchable Privacy Library containing the most up to date articles, research, and practical guidance on a wide range of privacy topics and issues. Certification candidates are advised to supplement their preparation by referring to this valuable content.
