PRUDENCE THE PRIVACY PRO

Look at this list Prudence! We have data subjects all over the world! How are we going to handle all of these data localization laws?

Hmm, this will be tricky, but don't you worry one bit!

Countries around the world are requiring companies to store citizens' information within their borders and more laws are likely on their way! It can be a challenge to comply with so many different rules, but that's why we're going to help!

This job may require a little more legwork than usual.

I think it's time we take this show on the road.

Get your suitcase Opy! We are heading overseas!

I just got a new client who needs help tackling data localization laws and we are taking the case!

Countries around the world are requiring companies to store citizens' information within their borders and more laws are likely on their way! It can be a challenge to comply with so many different rules, but that's why we're going to help!

It can be tough to figure out the best way to store the information, too. Personally, I think it will help to be on the ground. Maybe we can chat with some regulators to talk shop about compliance?

Okay, Opy! We are packed and ready to go. Let's get in the air and get to work!

Plus, there's nothing wrong with some travel now and then!

I am now officially on the case!
